Brand New Book ***** Print on Demand *****.Excerpt from Shelley s View of Nature Contrasted With Darwin s Ladies and Gentlemen, - I venture this evening to offer a few remarks on a very complex and far-reaching subject, and before beginning I must crave your indulgence if you find, as must almost unavoidably be the case, that my treatment of it is more fragmentary than could be wished. Speaking broadly, I think it will be admitted that the poet s attitude toward, and interpretation of, Nature may be said to undergo continual modification in harmony with the development of religious and scientific thought. For although the poet in his happiest intuitions often leaps at truths far in advance of the conclusions reached by the slower processes of methodical research, yet on the whole, the representative poems of the world seem to body forth the view of Nature, which is essentially the product of their age and nation. In the Iliad and the Odyssey we find the aspects of the visible universe personified in a thousand and one shapes of plastic beauty. The vivifying power and splendour of the sun radiates through the limbs of Apollo; shaggy-breasted Pan is the expression of lush-teeming forest life, and the fatal allurement of lapping waters murmurs for ever in the sweet-voiced sirens.
