Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 235 x 190 mm. Language: English . Brand New Book ***** Print on Demand *****.Genuflect and admire the Almagest, which lies as the solid foundation to the entire edifice of contemporary chronology! Almagest is supposed to have been written in the II century AD by Ptolemy, the founding grandfather of astronomy. This presumably antediluvian tractate catalogues 1028 observable stars with a fairly high precision of 10 -15 (arc minutes) of longitude. Now, the rotation of the Earth makes the night sky make a turn of 1 arc degree every four minutes. One arc degree consists of 60 arc minutes, which means that the sky rotation speed equals 15 (arc minutes) per one minute of time. Ptolemy s very precise measurements were simply too precise to have been performed with the existing time measurement instruments existing in the alleged II century A.D. Ptolemy of the II century A.D. had at his disposal a sundial, a clepsydra (water jug with a hole), or an sand hourglass. None of this contraptions has precision to a minute. Could he have used his Grandfather s Swiss chronometer that had a minute hand? This seems improbable considering that minute hands are a novelty introduced to clocks only as recently as 1550 AD. Has history of civilization been tampered with? Conspiracy? Nothing of the sorts. Why then the world history and especially its chronology were tampered with? Let us introduce a hypothesis that to boast, to lie, to pretend was (is?) a part of the human nature. On one hand, everybody justified the claims laid to the titles, and lands by alleged ancestry and its glorious deeds. On the other hand the court historians knew only too well how to please their masters. No need for conspiracy for that....
