## A Laboratory Manual of Foods and Cookery (Classic Reprint) (Paperback)

---

By Emma B Matteson

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Laboratory Manual of Foods and Cookery Teaching experience has shown the need of a textbook approaching the study of foods and cookery through experimental work in chemistry, bacteriology, and biology. In this book, therefore, under each topic a considerable number of experiments will be found. The performance of these experiments and the answering of the questions which arise from them will give the student a firsthand acquaintance with the leading characteristics of each kind of food, will furnish a basis for the discussion of the procedures used in cookery, and should give her such a grasp of the principles involved as will enable her to work without recipes, or to develop her own. The attainment of such mastery on the part of the student is, however, greatly facilitated by practice with a considerable number of recipes which have already been thoroughly tested, just as in other experimental sciences, the student is taught in part through practice with explicit and workable laboratory directions. Hence, in addition to the experiments, the present work will be found...
