Reviews

Unquestionably, this is actually the greatest function by any writer. We have go through and so i am confident that i am going to gonna read through once more once again later on. I am just happy to explain how this is actually the very best book i have got go through during my individual existence and might be he greatest ebook for ever.

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Feeding Habits and Growth of Venus Mercenaria In a previous bulletin of the New York State Museum, attention was directed to the fact that both the hard clam, or little-neck, and the common long-neck clam were rapidly diminishing in numbers, not only in the waters of New York State, but also along the entire Atlantic coast where these forms have previously been found. After a careful examination of a large part of the coast of New England and Long Island, it appeared that the apprehensions of many market men and clammers concerning the growing scarcity of these forms were well founded. It was not intended that the attitude of an alarmist should be assumed. Clams still may be had at almost any hotel or restaurant. Even if the natural beds alone are depended on, as heretofore, a certain supply may be had for some time. But it is certainly true that, unless something is done to check or modify the indiscriminate and unintelligent methods of taking.these forms now in vogue, the supply is finally to fail more or less completely everywhere, as it has already failed in many localities. That time is not remote. It is difficult for one not personally familiar with the clam flats and beaches, and their histories, to realize the truth of such a statement. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
