How many famous people of history were born on your day of birth and what were their fields of fame or eminence? Might there be seasonal tendencies in mating selectivity and marriage partner preference (and also in the frequency of divorce) based on the date of birth? Recent scientific research has discovered that genes and DNA are profoundly affected by the seasons. Results of the new research, headed by geneticist John Todd of the University of Cambridge, were published in the science journal Nature Communications in Widespread seasonal gene expression reveals annual differences in human immunity and physiology [// This new knowledge has far-reaching implications, indicating that our genetic code changes with the time of year. Fans of astrology will of course be thrilled, but this book is not about the influence of the planets, but rather about the influence of the seasons. Seasons of Birth, Marriage and Profession presents the results of several studies of birthdays which indicate that the date of one s birth might make a difference in mating selectivity and in professional success viz. job choice, depending on the field of activity, perhaps somehow based on environmental variables such as temperature, daylight and/or geomagnetism, which could affect the...
