Introductory - The Tariff Question Simple. We have no brief compendium for popular use, including a broad discussion of protection to home industry, criticism, of free trade assertions and theories, and exposure of the delusion and peril of British free trade. Large volumes and valuable essays and tracts have had wide reading, but a condensed manual is wanted. This book aims to supply that want, and to present the leading principles and facts on this great question in such compass as to be readable and useful in the homes of the people, in libraries, and as a help in discussions. A generation has passed away since the great discussion of the tariff in the days of Henry Clay and Horace Greeley, and there are now many who want information to gain clearer and more positive views and opinions. There are protectionists and free traders, equally sincere and earnest in their opposite opinions, yet wishing more light. A question so important and prominent deserves careful thought and serious attention. The statements of this work are offered as helps to all these classes. Its plain criticisms expose the methods and aims of leading free trade advocates, and cut across the grain of strong prejudices, but they do not impugn the honesty of well-meaning and sincere free traders. Many of our college professors and text-books favor free trade. These teachers often lack practical knowledge of the world, and are captivated by fine English theories, which are easy to accept, and save the trouble of studying the facts of our industrial history, as given by Carey, Elder, Thompson, Bowen, Kelley and other able Americans,...
